MEMORANDUM

TO: All ARB Staff

FROM: James R. Ryden, Chief
Enforcement Division

DATE: February 27, 2003

SUBJECT: APPOINTMENT OF RICHARD C. SMITH AS STRATEGIC
ENVIRONMENTAL INVESTIGATION AND ENFORCEMENT SECTION
MANAGER

I am pleased to announce the appointment of Richard C. Smith (RC) as the manager of the Strategic Environmental Investigation & Enforcement Section. Since coming to the Air Resources Board in 1994 he has proven himself in both the compliance assistance and enforcement areas. In just a short time he was acknowledged as one of our experts on visible emissions, stationary combustion sources, and continuous emission monitoring. He is also equally respected for his investigative skills with key contributions to several noteworthy environmental cases. In 1999 Richard was promoted to Air Resources Supervisor I and currently manages the Stationary Source Division's Compliance Training Section.

Richard's previous assignments include both air district and federal government service. He served as an Air Quality Inspector for the San Joaquin Valley Air Pollution Control District and as an aviator and flight instructor in the United States Air Force. Always a believer in the benefits of higher education, Richard holds five degrees including a Master of Aeronautical Science and a Master of Business Administration. Please join me in congratulating Richard on his new appointment.
